ACADEMIC PROJECTS

▶ **Coder.AI Chatbot Pro**

- Voice-enabled web app with user auth, persistent chat history, and customizable themes.
- Glass-morphism UI with speech-to-text and text-to-speech for seamless human-AI interaction.

▶ **Advanced AI Detection System**

- Real-time object detection & emotion analysis using TensorFlow.js and COCO-SSD.
- Multi-object tracking, motion heatmaps, alert zones, and mood analysis with interactive visuals.

▶ **Machine Learning Projects**

- House Price Prediction: Regression model using scikit-learn.
- Spam Email Classifier: NLP with TF-IDF and ML algorithms.

▶ **Software Projects**

- Hotel Management & Ordering System (Python, OOP, File Handling).
- Easypaisa ML Project: Data analysis & predictive insights (Pandas, NumPy, Scikit-learn).

▶ **Frontend Web Design**

- Personal portfolio with animated floating shapes and interactive skill cards.
- Responsive Myntra clone (HTML, CSS, JavaScript).

▶ **Data Entry & Content Automation**

- Converted raw data into structured reports using MS Excel, Word, and PowerPoint.

CERTIFICATIONS

- Python for AI — Coursera
- Data Entry Certification
